

HUDSON EATS: THE FIRST-EVER BLUE VERIFIED FOOD HALL

Worked with a large food hall to become Blue Verified through Oceanic Global's Blue Standard. The restaurants at Hudson Eats have successfully **avoided using close to a million single-use plastic items**.

Our team worked closely with the **13 food tenants** to eliminate single-use plastics and operate more sustainably.

Onsite assessments conducted by our team offered insight into how to responsibly manage waste and make the improvements necessary to become Blue Verified.

Hudson Eats completed and submitted their application and became **the first-ever Blue Verified food hall!**
